

6TH INTERNATIONAL CONFERENCE ON SMART AND SUSTAINABLE TECHNOLOGIES

September 8-11, 2021
Bol and Split, Croatia (Hybrid)

Technically Co-Sponsored by

Symposium on

INTERNET OF THINGS

Organizer:

Luigi Patrono

luigi.patrono@unisalento.it

CALL FOR PAPERS

Symposium on "Internet of Things" in the frame of the 6th International Conference on Smart and Sustainable Technologies (SpliTech 2021), technically co-sponsored by the IEEE Communication Society (ComSoc), will be held in Bol and Split, Croatia, September 8-11, 2021.

The main goal of this Symposium is to present and discuss recent advances in the area of the Internet of Things and Embedded systems that are becoming research topics more and more interesting for both academia and industry. This symposium will provide an opportunity for scientists, engineers and researchers to discuss new applications, design problems, ideas, solutions, research and development results, experiences and work-in-progress activities in this important technological area.

Accepted, and presented papers will be published in the conference proceedings and submitted to IEEE Xplore as well as other Abstracting and Indexing (A&I) databases. Authors of selected best papers will be invited to submit an extended version of their manuscripts for publication in a special issue of some international and indexed journals.

IMPORTANT DATES

Complete manuscript due **May 10, 2021**
Notification of acceptance July 05, 2021
Camera-ready manuscript July 25, 2021

More information about the Conference including details on the submission process and authors kit is available on the website:

6TH INTERNATIONAL CONFERENCE ON SMART AND SUSTAINABLE TECHNOLOGIES

September 8-11, 2021
Bol and Split, Croatia (Hybrid)

We cordially invite speakers who wish to present original papers on the following subjects, but not limited to these, associated with the following topics:

- **Software and Hardware Architectures for Embedded Systems**
- **Mobile and Pervasive/Ubiquitous Computing**
- **Real-time and Reconfigurable Embedded Systems**
- **Rapid prototyping**
- **Ubiquitous sensing and actuation**
- **Mobile applications for monitoring and assisting**
- **IoT architectures, protocols, and algorithms in smart cities**
- **Innovative AAL systems**
- **Cloud Computing in Embedded System Development**
- **Edge and Fog Computing**
- **People-IoT Interactions**
- **Solutions based on DLT**
- **Middleware and Architecture for the IoT**
- **Smart devices and intelligent products**
- **Localization technologies**
- **Wearable technologies**
- **Wireless Sensor Network**
- **Microservices Architectures**
- **Security and Privacy in IoT**
- **Industrial Internet of Things: Industry 4.0**
- **ModBus and ETSI M2M**
- **Big Data and Data Analytics**
- **Semantics and Ontologies in IoT**
- **Social Internet of Things**
- **Smart environments and Internet of Things**
- **Case studies, field trials, and industrial Applications**

TECHNICAL PROGRAM COMMITTEE

Aitor Almeida
Deusto Institute of Technology, Spain

Luigi Atzori
University of Cagliari, Italy

Marco Baldi
Politecnico delle Marche, Italy

Daniilo Blasi
STMMicroelectronics, Italy

Paolo Brizzi
ISMB of Turin, Italy

Luca Catarinucci
University of Salento, Italy

Pasquale Dottorato
LAB ID, Italy

Rajit Gadh
UCLA, USA

Vincenzo Mighali
University of Salento, Italy

Marina Mongiello,
Politecnico of Bari, Italy

Silvia de los Rios Pérez
Universidad Politecnica de Madrid, Spain

Matteo Petracca
Scuola Sup. Sant'Anna, Italy

Piercosimo Rametta
University of Salento, Italy

Daniele Sancarlo
IRCCS, Italy

Petar Šolić
University of Split, Croatia

Vladimir Urošević,
BELIT, Serbia

Alessandro Vercelli
University of Turin, Italy

Antonio Vilei,
STMMicroelectronics, Italy
